## SMARTMOTOR )))

Built-in radio and Dry Contact

### Accessories:

- Trigger
- Dry contact transmitter
- RF remote control included
- RF wall transmitter

Freya is our newest addition to the Valhalla family, and is the perfect choice for hidden installations in large venues. The Freya projection screen is a recessed ceiling case and is available in a large range of standard sizes and screen surfaces, even as Tab Tension versions. Freya is made of aluminum and is developed and produced in Sweden.

As a key feature the screen is entirely hidden when not in use, with both screen and bottom dowel retracted in the recessed case. Moreover, Freya offers you the possibility to install the case first and the screen any time later, therefore the screen surface is not at risk of damage during construction work. Sliding brackets on top of the case allow easy and unlimited adjustment when installing.

## SCREEN DIMENSIONS

### Considerations regarding cut out width

- Recommended cut-out length: screen width + 270 mm
- Total case length: screen width + 290 mm
- Case length: screen width + 260 mm
- Cut-out case size (W x H): 170 x 160 mm
