

ASTRANOVA

A white, black-backed front projection surface. For use with some of Euroscreen's larger projection screens. Provides a flat viewing surface. It diffuses projected light in all directions, so the image can be seen from any angle.

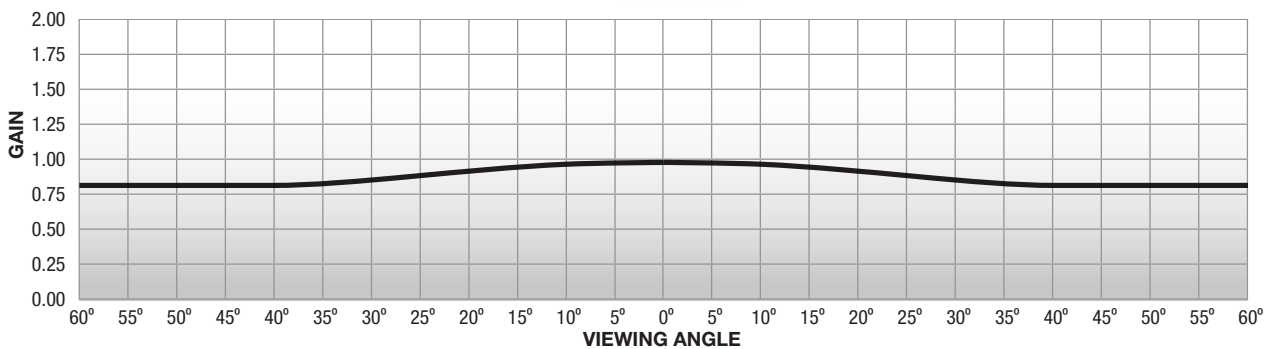

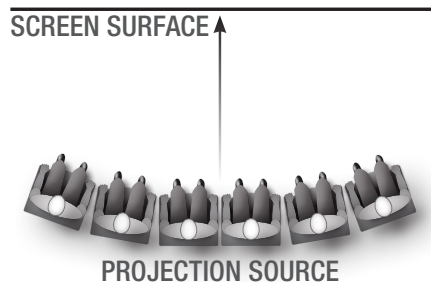

SCREEN SURFACE

- Front projection
- Average gain 1.0
- Viewing angle 180°
- Thickness 0.57 mm
- Black borders available

8K RESOLUTION	1.0 GAIN
0.57 THICKNESS	180° VIEWING ANGLE
	100% BLACKOUT

¹Composition may differ slightly for some screen sizes/models.

²Individual test results may vary. Results based on a representative sample in Draper inventory.
