

# ASTRANOVA

A white, black-backed front projection surface. For use with some of Euroscreen's larger projection screens. Provides a flat viewing surface. It diffuses projected light in all directions, so the image can be seen from any angle.

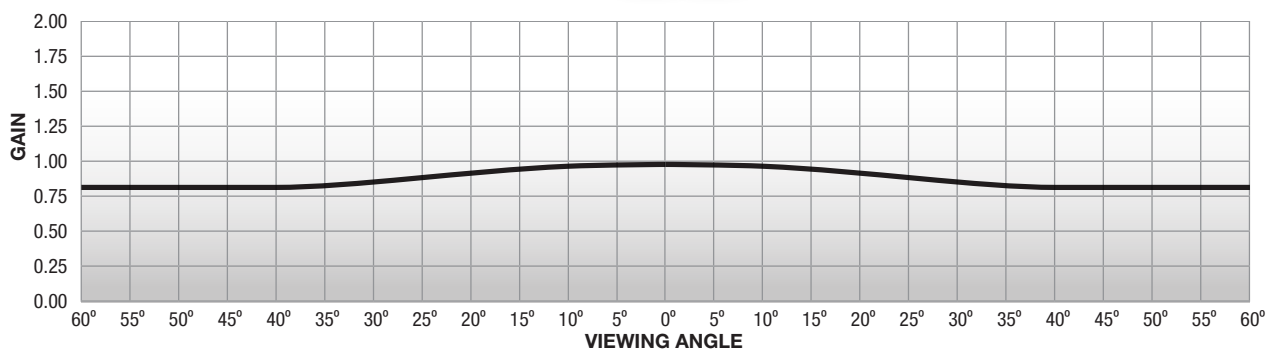

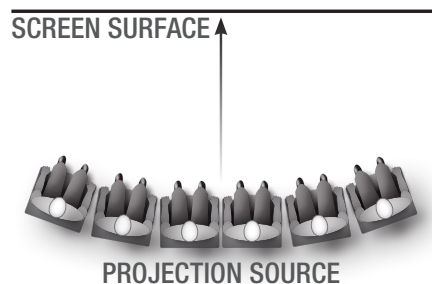

## SCREEN SURFACE

- Front projection
- Average gain 1.0
- Viewing angle 180°
- Thickness 0.57 mm
- Black borders available

<b>HD</b> RESOLUTION	<b>1.0</b> GAIN
<b>0.57</b> THICKNESS	<b>180°</b> VIEWING ANGLE
	<b>100%</b> BLACKOUT

<sup>1</sup>Composition may differ slightly for some screen sizes/models.

<sup>2</sup>Individual test results may vary. Results based on a representative sample in Draper inventory.
